Design Flexibility

Custom designed and built to provide extra space with loads of character, an Ausiports Deck is the ideal place to entertain family and friends, or just sit back, relax and unwind.

Maximum Fun

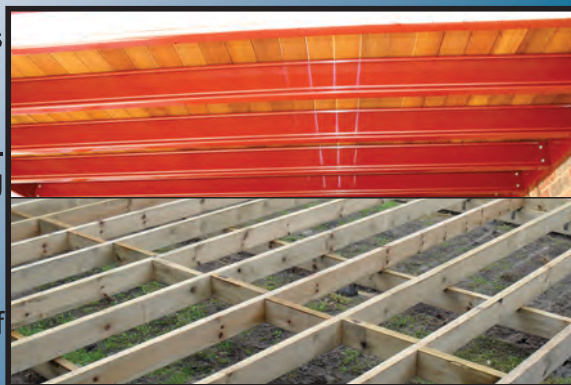

Make the most of your new deck area in all weather conditions by covering it with one of Ausiports great looking awnings. Keep it safe with a wide range of railings and balustrade designs available from Ausiports, including the popular Timber and Stainless Steel Wire Combination.

With over 2 decades of deck building experience and access to the best quality timbers and deck building systems in the industry, you can be confident that Ausiports will design and build your deck to perfection.

Material Choice

In most deck installations the versatility of treated pine or hardwood sub-structures are well suited. Difficult installations, long spans or areas of high termite risk are ideally suited to a steel deck sub-structure. A choice of decking board materials completes the perfect deck.
