Full Colorbond Range of Colours
Lots of design options
Obligation Free Quotes

Australian Made

Ausiports Garden Sheds are built tough using 100% Australian made Steel and can be supplied in any of the great Colorbond colours. You can even choose to have the trims in a contrasting colour to the wall and roof sheets.

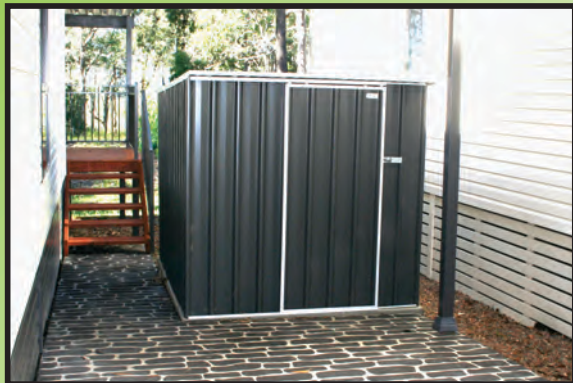

Design Options

The stylish lines of the Gable design will look great in any backyard but if you wish to make your shed disappear, go for the flat roof model and specify the same colour as your fences. Ausiports offer a range of standard sizes or can custom build to your requirements.

Customise It

All Ausiports Sheds feature a single, key lockable sliding door with heavy duty tracks and ball bearing rollers. Custom options include: Double Sliding Doors, Hinged Doors, Windows, Skylights and extra height walls. Ausiports will tailor make a shed to meet your storage needs.

Integrated Storage

If yard space is an issue and storage space is in short supply, Ausiports can integrate a custom built Storage Shed into the overall design of a new or existing carport.
