

Luxaflex® Metal Louvre Awnings

Various fitting options to suit most applications

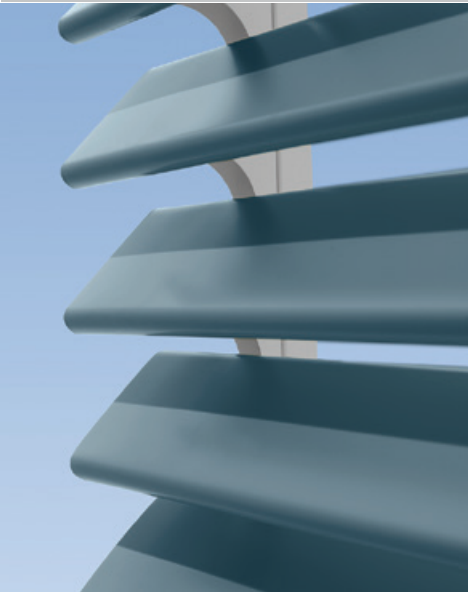

Choice of modern colours

Luxaflex Metal Louvre Awnings are extremely effective for providing privacy, light control and air flow for balconies and external windows. Their proven HD Color-Cote® Paint System is extremely durable. All understructure and rear of louvre panels are white to maintain a neutral appearance from inside.

DID YOU KNOW?
Aluminium awnings can reflect up to 90%* of heat normally transmitted through a window.

Luxaflex® Fixed Metal Awning Options

	Panel Angle	Max. width span	Max. height span	HD COLOR-COTE® Paint System
 <p>Luxaflex Sunguard Awnings If you require sun protection all year round then the Sunguard Aluminium Awning is ideal. The 84mm wide panels are fixed at 65 degrees offering high sun protection all year round. Fixed Louvre Awnings reflect the heat whilst allowing the breeze to pass through its horizontal blades.</p>	Fixed 65°	4.8m	2.7m	✓
 <p>Luxaflex Fixed Trinidad Awnings Deflect the sun's glare without sacrificing air flow, light or view. Choose the optimum angle for your needs, either "open" angles at 45 degrees or "closed" 60 degrees. Fixed Trinidad Louvre Awnings feature wider louvres than the Sunguard, and reflect the heat whilst allowing the breeze to pass through its horizontal blades.</p>	Open 45° Closed 60°	5m	2.7m	✓
 <p>Luxaflex Adjustable Trinidad Awnings Provides maximum light, heat and privacy control by allowing you to manually adjust the angle of the louvres throughout the day to suit your specific needs by using either an external or internal winder. Variety of louvre colours available.</p>	Not Fixed	5m	2.34m	✓
