INSULATED ROOFING

Transform your home and open up

New Living Spaces

AUSDECK
PATIOS & ROOFING

It's all we do and we do it well.

PATIOS | ROOFING | DECKS | CARPORTS | COVERS

The ultimate outdoor roofing
for alfresco living at its best.

"The Roof" .... the name says it all. Ausdeck's insulated roofing is simply the last word in patio and outdoor roofing. A clever three-in-one design that combines exterior roofing, superior insulation and a finished ceiling in easy to install custom cut panels.

This premium roofing blends state-of-the art heat resistant roofing with designer finishes that will transform the outdoor appeal of your home. Superior, durable roofing that creates all weather outdoor spaces for year-round comfort and entertaining.

Australian owned and manufactured, "The Roof" provides the most cost effective, low maintenance solution to transform outdoor spaces into stunning alfresco living areas.

Australian owned and manufactured

THE ROOF
CORRUGATED AND RIBBED

10 YEAR WARRANTY

Superior insulation ...

designer appeal

Your custom designed Ausdeck roofing comes with your choice of 50 mm, 75 mm or 100 mm insulating foam core: a roofing solution that reduces heat transmission and insulates against noise from rain and storms. This energy efficient insulation keeps your outdoor living area cool in summer and warmer in winter.

"The Roof" not only gives year-round protection from the elements, its clever design maximises outdoor living spaces by minimising support beams: creating a larger outdoor living area than you might imagine.

The secret to "The Roof's" minimalist beam design lies in the strength of its support beams. Only Ausdeck uses super strength 1.2 mm Shurelock beams: the strongest on the market. (Ask our competitors what size support beams they use)

Super strong, appealing and eco-friendly: "The Roof" is the pinnacle of insulated outdoor roofing.

THE ROOF

CORRUGATED AND RIBBED

"The Roof" is manufactured in Australia to withstand the harshest local conditions. We're so confident in the strength and durability of our product that we offer a 10 year guarantee on every insulated patio system we manufacture.

Outdoor Living Design Options

Flat Roof

"The Roof" offers endless design possibilities - and to help you choose the right finish for your outdoor living space, Ausdeck has created a virtual designer tool. "Vision Patio Styler" is a cleverly designed computer program that allows you to mix and match design elements and colour finishes to explore the best design for your living environment. Design your dream alfresco living area today from the comfort of your own home by visiting www.ausdeck.com.au

Gable End

A gable awning with recessed skylights or freespan roofline to match your existing roof profile? A traditional flat roof design with sleek, ceiling finish or a self bracing hip roof for a high pitched effect? Because each and every Ausdeck insulated roof is custom designed, your new outdoor living area is limited only by your imagination! Ask your patio designer to recommend the best solution for your house style, or experiment with different finishes with the "Vision Patio Styler".

Combination Roof

"The Roof" is manufactured in Australia to withstand the harshest local conditions. Our super strength 1.2mm Shurelock beams are the strongest on the market. We're so confident in the strength and durability of our product that we offer a 10 year guarantee on every insulated patio system we manufacture.

Freespan

The team at Ausdeck has more than 100 years combined insulated roofing experience. Ausdeck is the largest patio producer in Australia and our patio systems are engineered to provide maximum comfort at the most cost effective price. That's because our systems are custom-designed for easy installation and delivered right to your door in modular panels ready to bring your new outdoor living area to life. Functional. Durable. And affordable.

Eco Housing

"The Roof" is not just for outdoor living! Because of its superior thermal properties and clever engineering it requires no timber trusses. "The Roof" is becoming the architects choice for energy-efficient housing. Our insulated roofing is showcased on many of the properties in The Ecovillage at Currumbin on the Gold Coast: awarded as the world's finest example of sustainable urban development. Friendly on your wallet...and friendly to the environment!

The most versatile outdoor roofing solution

Features

- Available in ribbed and corrugated profiles
- Cost effective and low maintenance
- Sleek, contemporary ceiling finish
- Fewer posts, allowing for more open space
- Extensive range of decorator colours
- Minimises noise from rain and storms
- Matches existing house roof profile and colours
- Water-tight joining system
- Protective film reduces potential for damage
- Profiled polystyrene insulation (corrugated only)
- Concealed ducting for electrical cables for a cleaner finish
- 1000mm coverage

THE ROOF - CORRUGATED

"The Roof" is a durable three-tiered roofing material which bonds a high tensile roof sheet and a smooth underskin/ceiling with an insulating polystyrene core. Roof sheets and beams are made-to-measure and it comes ready-to-erect.

THE ROOF - RIBBED

* Please see warranty clause.

A cleaner finish

Ausdeck insulated roofing delivers a sleek designer finish as cables from fans and lighting are concealed within the roofing panels.

Ingenious design.
Unrivalled performance!

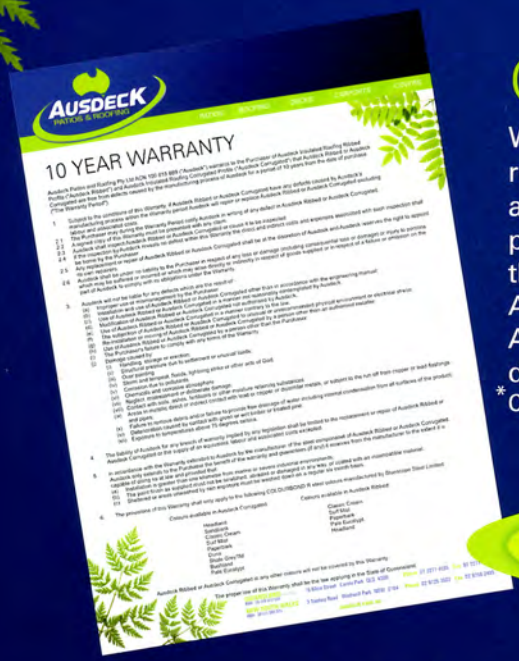
AUSDECK
PATIOS & ROOFING

About Us

Ausdeck Patios & Roofing is an Australian owned and operated company that specialises exclusively in patios and roofing systems for both the home improvement and commercial market. Our systems are distributed by accredited patio builders, home improvement companies and commercial contractors throughout Australia. Ausdeck is the only patio manufacturer in Australia that manufactures both single skin and insulated roofing systems entirely in-house.

Each and every Ausdeck manufactured product undergoes a rigorous five-point quality check before it leaves our manufacturing facility.

Ausdeck: ask for it by name!



AUSDECK
